ROME
VILLA UMBERTO I
1935

INDEX TO THE ' INTERNATIONAL BULLETIN OF PLANT PROTECTION ' FOR THE YEAR 1935.

I.

SUBJECT INDEX.

A.

AEGEAN ISLANDS: Decree No. 170 of the Governor of the Dependency, dated 14 August, 1935, applying to the Aegean Islands the provisions contained in the Law No. 1272 of 23 June, 1927, 278-M.

Algeria: Decree of 11 October, 1934, relative to the importation into Algeria of fresh fruits coming from countries infested with San José scale (*Aspidiotus perniciosus*), adding Portugal to the list of contaminated countries, 33-M. – D. of the Governor General of Algeria, dated 31 May, 1935, by which the Decree of 6 December, 1920, bringing 14 communes of the department of Costantine under the special scheme for protection against grape phylloxera, is annulled in regard to the commune of Duquesne, 226-M. – Locusts, 77-M, 132-M.

Angola: Locusts, 78-M, 101-M, 173-M, 223-M, 269-M.

Anhalt: Decree of 28 January, 1935, modifying the Police Ordinance of 31 October, 1928, concerning the control of field and forest pests, establishing provisions for the control of the Beet Leaf Bug, *Piesma quadrata*, 110-M. – Police Ordinance, dated 6 October, 1934, adopting measures for the control of public establishments of seed disinfection, 15-M.

Argentine Republic: ' Acuerdo de Ministros ' No. 48.945-1175, dated 21 September, 1934, authorising the Direction General of ' Yacimientos Petrolíferos Fiscales ', to deliver 100.000 litres of crude oil ' Curafrutal ' to the Ministry of Agriculture for the purpose of preparing emulsions for the treatment of fruit trees, 58-M. – ' A. ' No. 50.053 of 15 October, 1934, giving approval to the purchase of eggs of the South American Locust (*Schistocerca paranensis*) by the ' Banco de la Nación Argentina ', 86-M. – Decree No. 49.931 of 8 October, 1934, modifying the Decree No. 30.362 of 28 October, 1933, concerning the quantity of barriers that may be delivered on loan free of charge to the agricultural syndicates established for the collective control of the South American locust (*Schist. paranensis*), 180-M. – D. No. 60.624, dated 26 October, 1934, concerning locust control, 133-M. – D. No. 51.664 of 15 November, 1934, modifying the Decree No. 50.624 of October of the same year, 134-M. – D. No. 51.966 of 21 November, 1934 concerning fresh fruits, 134-M. – D. No. 53.045 of 10 December, 1934, establishing at the ' Dirección de Defensa Agrícola y Sanidad Vegetal ', dependent on the Ministry of Agriculture, a body of honorary agronomical correspondents, 276-M. – D. No. 54.691 of 12 January, 1935, establishing the procedure to be followed with regard to the obligations entered into by farmers who have bought barriers for the control of the South American locust (*Schist. paranensis*), 206-M. – D. No. 55.057 of 19 January, 1935, concerning the transport of vegetables and fresh fruits, 110-M. – D. No. 55.058 of 19 January, 1935, by which the Decree No. 45.741 of 21 July, 1934,

is effective on and after 15 September, 1934, 180-M. – D. Nos. 55.176 and 55.178 of 23 January, 1935, concerning locust control, 207-M. – D. No. 59.840 of 30 April, 1935, declaring as pests of agriculture the birds known by the name of ' loros ', 251-M. – D. No. 56.827 of 26 February, 1935, suspending the provisions of the Decree No. 55.500 of 31 January, 1935, concerning vegetable products, 276-M. – D. No. 56.824 of 27 February, 1935, establishing the form for collecting the charges for the disinfection of cotton seed, 276-M. – D. No. 56.910 of 6 March, 1935, fixing the sale prices of galvanised iron barriers for use against locusts, (*Schist. paranensis*), 276-M. – D. No. 54.285 of 28 December, 1935, containing regulations of the Decree of 3 December, 1930, by which Aleppo grass (*Sorghum halepense*) was declared a plant noxious to agriculture, 205-M. – ' Dirección de Sanidad Vegetal ', of the Ministry of Agriculture, 245-M. – Fungus parasites of scale insects of fruit trees, 102-M. – Law No. 11.905 of 22 September, 1934, authorising the Government to reserve the sum of two millions of ' pesos ', for the control of the South American locust (*Schist. paranensis*), 59-M. – Locusts, 150-M. – Ministerial Resolution No. 62 of 18 January, 1934, terminating the functioning of the Commission for organising the competition of apparatus for the control of *Schist. paranensis* and approving the decisions of the Commission, 15-M. – M. R. No. 67 of 23 January, 1934, charging the Direction of the ' Defensa Agrícola y Sanidad Vegetal ' with the execution of the Presidential Decree No. 32.962 dated 21 December, 1933, relating to the exportation of fresh fruits, 15-M. – M. R. No. 117 of 16 February, 1934, concerning the transport of fruits and vegetables, 16-M. – M. R. No. 513 of 3 August, 1934, forming a Commission for the study of a plan of control of Aleppo grass (*Sorghum halepense*), 16-M. – M. R. No. 557, dated 27 August, 1934, concerning the validity of the certificates of exportation delivered by the ' Oficina Sanitaria de Importación y Exportación de Plantas y Semillas ' (Sanitary Office of Imports and Exports of Plants and Seeds), 58-M. – M. R. No. 708 dated 9 October, 1934, charging the ' Dirección de Defensa Agrícola y Sanidad Vegetal ', with the execution of the Decrees relative to the exportation of fresh fruits, 133-M. – ' Lepra explosiva ' of the orange, 773-M. – Pear and Apple Scab (*Venturia pirina* and *V. inaequalis*), 1-M. – Presidential Decree No. 34.079.32 of 5 January, 1934, declaring the mite *Bryobia praetiosa* an agricultural pest, 15-M. – P. D. No. 34.751-97 of 19 January, 1934, establishing the conditions under which the transport of potatoes will be permitted in the territory of the Federal capital, 15-M. – P. D. No. 37.383-314 of 28 February, 1934, concerning the purchase of a vacuum chamber for fumigation belonging to the Direction of the ' Defense Agrícola y Sanidad Vegetal ', 16-M. – P. D. No. 37.843-351 of 7 March, 1934, authorising the ' Dirección de ' Defensa Agrícola y Sanidad Vegetal ' to engage temporarily the personnel for the control of *Schist. paranensis*, 16-M. – Resolution No. 805 of 19 November, 1934; regulating the Decree No. 51.325 of 9 November, 134-M. – R. No. 850 of 18 December, 1934, authorising the ' Dirección de Defensa Agrícola y Sanidad Vegetal ' to hand over to the Argentine Fertilisers Syndicate, for industrial purposes, hoppers of the South American locust (*Schist paranensis*), 158-M. – Species of *Fusarium* existing in the country, 125-M. – Yellow Rust in the Wheat-Growing Region: Behaviour of the

cultivated varieties vis-à-vis the disease, 79-M.

Australia: Notes on plant diseases recorded in New South Wales for the year ending 30th June, 1934, 2-M. – Notes on plant diseases recorded in New South Wales for the year ending 30th June, 1935, 270-M. – Proclamation of 9 July, 1935, considering *Puccinia graminis* as a disease for the purposes of the Plant Diseases Act, 1924, 227-M. – P. of 9 July, 1935, concerning the prevention of the spread of *P. graminis*, 227-M. – Wandering grasshopper (*Chortoicetes terminifera*) in South Australia, 55-M.

Austria: Law No. 8 of 13 December, 1933, relating to plant protection in Vorarlberg, 59-M. – Ministerial Decree No. 58 (undated) autorising until further orders, to import potatoes by railways, 180-M.

B.

Baden: Decree of 24 October, 1934, relative to the control of pests of fruit trees, 35-M.

Beet Research: Vth Assembly of the International Institute of, 132-M.

Belgian Congo: Ministerial Decree No. 179 of 20 July, 1934, declaring the locust invasions in the Province of Lusambo to be a public calamity, 36-M. – D. Nos. 24-Agri. and 171-Agri., of 29 September and 2 November, 1934, providing for assistance in the control of locust invasions, regarded as public calamities, in the Provinces of Costermansville and Léopoldville, and containing the same measures already adopted for the Province of Lusambo, 111-M. – D. No. 33-Agri., dated 29 December, 1934, concerning the control of locusts in the province of Stanleyville, 135-M. – Ordinance No. 29-Agri., of 9 March, 1934, including insectivorous birds among the animals the hunting of which is forbidden throughout the whole Colony, 36-M.

Belgium: Circular of 19 April, 1935, regulating the importation of tomatoes and aubergines from the phytosanitary point of view, 251-M. – C. of 19 April, 1935, regulating the importation of potatoes, 252-M. – Colorado potato beetle in the country, 247-M. Entomological Society of Belgium, 124-M. – Ministerial Decree of 26 May, 1935, regulating trade in asparagus, cauliflowers, tomatoes, strawberries and witloof (chicory), 252-M.

Bibliography (Recent), 18-M, 41-M, 65-M, 92-M, 116-M, 140-M, 162-M, 185-M, 209-M, 232-M, 256-M, 281-M. (See also the special list of authors mentioned under the heading 'Recent Bibliography' of the *Bulletin*).

Brazil: List of diseases of ornamental plants in the State of Minas Geraes, 104-M. – Ministerial Resolution of 19 November, 1934, concerning the importation in the whole of the country of plants and parts of plants, from any country, 87-M. – 'Portaria' of 11 June, 1935, permitting to kill sparrows in all parts of the country, 276-M. – Some new diseases observed in the State of Minas Geraes in 1934, 175-M.

Bremen: Decree of 20 November, 1934, relative to the control of wart disease of potatoes (*Synchytrium endobioticum*), 58-M.

C.

Cameroon (French): Presidential Decree of 12 October, 1934, relative to plant protection, 38-M.

Canada: Circular of the Destructive Insect and Pest Act Advisory Board, dated 17 October, 1934, concerning mushroom spawn, 16-M.

Ceylon: Notification of 29 November, 1934, concerning citrus fruits originating from Palestine, 134-M.

Chile: Decree No. 756 of 22 May, 1935, making compulsory from 15 May, 1935, to 15 May, 1936, the control of the fruit fly *Anastrepha* sp., 276-M. – D. No. 781 of 29 May, 1935, modifying paragraph (*e*) of article 5 of the Supreme Decree No. 105 of 11 February,

1935, 277-M. – ' Decreto supremo ', No. 298 of 9 April, 1935, concerning sanitary control of vegetables, 227-M. – ' D. s. ', No. 458 of 27 April, 1935, concerning the introduction of insects useful to agriculture, 228-M. – Law No. 5.504, of 29 September, 1934 concerning the control of the pests which attack national fruit growing, 88-M.

Colombia: Decree No. 810 of 6 May, 1935, establishing a special temporary commission of plant protection, 277-M. – ' Resolución ' No. 8 of 23 January, 1935, nominating a Commision for the purpose of studying a plague of ants which has appeared in the coffee plantations of the Municipality of Chinchiná, 158-M. – Sanitary protection of the coffee tree and its products, 172-M.

Committee for the Study of Locust Biology: IVth meeting, 132-M.

Conferences: Third International Locust C. Resolutions, 8-M.

Congresses: VIth International Congress of Entomology, 100-M. – XIIth I. C. of Zoology, 100-M. – IVth I. Technical and Chemical C. of Agricultural Industries, 148-M. – IVth I. Vine and Wine C., 172-M. – IIIrd I. C. of Compared Pathology, 196-M. – IInd I. C. of Microbiology, 196-M. – XIth I. Horticultural C. – Problems and Plant Pathology and Agricultural Entomology, 243-M. – IVth I. Technical and Chemical C. of Agricultural Industries, 267-M. – IVth I. Vine and Wine C., 267-M. – VIIth C. of Entomology, 292-M.

Convention between American countries for locust control, 83-M.

Cyprus: Order in Council No. 1643 of 21 June, 1935, substituting the Order in Council No. 1421 of 23 April, 1931, 228-M.

Cyrenaica: Decree of the Governor, No. 35637, dated 28 January, 1935, establishing that the presence of *Chlorita libyca* in vine-yards should be reported by the owner or, in his absence, by the tenant, within 10 days following the appearance of the insect, 111-M.

Czechoslovakia: Decree of 23 June, 1934, concerning the control of the San José scale (*Aspidiotus perniciosus*), 281-M. – Ministerial Notification of 1 April, 1935, designed to prevent the introduction of wart disease of potatoes (*Synchytrium endobioticum*), 281-M.

D.

Danzig (Free City of): Convention between the Free City of Danzig and Poland, signed on 5 August, 1934, relative to plant protection, 37-M. – Decrees dated 11 December, 1934, adapting the phytosanitary legislation of the country to the regulations in force in Poland following the phytosanitary Convention between Danzig and Poland, 135-M. – D. of 15 July, 1935, regulating the transit of potatoes, plants, seeds and fruits, 252-M.

Denmark: Amendment dated 18 December, 1934, to the provisions concerning the regulation of means of control of crop pests, 135-M. – Decrees No. 31, 32 and 34, dated 22 February, 1935, concerning the importation of plants, parts of plants and potatoes and the sanitary inspection over the importation of the latter, 180-M. – Regulation No. 33 dated 22 February, 1935, concerning the importation of plants, parts of plants and potatoes and the sanitary inspection over the importation of the latter, 180-M.

Dominican Republic: Law No. 906 of 23 May, 1935, modifying Article 2 of the Law No. 938 of 23 May, 1928, 255-M.

E.

Egypt: Decree of 15 July, 1935, forbidding the importation of date fruits into Egypt, without the authorisation of the Ministry of Agriculture, 228-M.

– Entrance into Egypt of insect pests, bacterial, fungus, and other diseases is prohibited, 60-M. – Locusts, 201-M. – Royal Rescript No. 79 of 10 July, 1935, establishing a local Committee for organising the Fourth International Locust Conference which will be held in Cairo in 1936, 228-M.

England: Importation of Elm Trees and Conifers (Prohibition) (Amendment) Order of 1935, dated 18 June, 1935, concerning the importation of such plants, 275-M. – New and interesting phytopathological records for the year 1934, 53-M. – Plant quarantine stations in the British Empire, 76-M. – Order dated May 3, 1935, regulating the importation of cherries into England and Wales during the 1935 season, 158-M.

Eritrea: Decree No. 7010 of 13 December, 1934, with a view to protecting the cultivation of pricky pears (*Opuntia*) in the Colony, 37-M. – D. No. 7090 of the High Commissioner for the East African Colonies, dated 4 March, 1935, concerning imports of fresh fruit and vegetables into Eritrea, 158-M. – D. No. 7144, of the High Commissioner for the East African Colonies dated 13 April, 1935, prohibiting the introduction into and transit through Eritrea of plants, parts of plants and bunches of bananas, 180-M. – Locusts, 4-M, 29-M, 54-M, 80-M, 125-M, 176-M, 201-M, 249-M, 273-M.

Estonia: Destruction of barberry and buckthorn, 5-M.

F.

FINLAND: Apple Powdery Mildew (*Podosphaera leucotricha*), 151-M. – Decree No. 71 of 8 February, 1935, concerning the capture of the musk rat (*Fiber zibethicus*), 181-M. – Law No. 53 of 25 January, 1935, modifying the Law of 5 June, 1935, concerning the protection of plants, 180-M. – L. No. 53 of 25 January, 1935, modifying paragraph 9 of the Law of 5 June, 1935, 278-M. – Ministerial Resolution No. 216 of 6 June, 1935, fixing the total expenditure by the State on the inspection of potatoes introduced into the country, 278-M.

France: Catalogue of species and varieties of potatoes and oats cultivated in France up to 1 October, 1934, established by the Committee of seed-control of the Ministry of Agriculture, 39-M. – Decree of 29 May, 1935, publishing and bringing provisionally into force the treaty between the French Republic and the Kingdom of the Netherlands, 181-M. – D. of 8 August, 1935, applying to Algeria the provisions contained in the Law of 28 June, 1934, 229-M. – Law of 10 March, 1935, on the supression of fraud in the trade of products used for the destruction of pests of crops, 159. – L. of 23 March, 1935, according approval to the International Convention for Plant Protection signed at Rome on 16 April, 1929, 137-M. – Ministerial Decree of 16 October, 1934, applying to seeds of wheat and oats and to potatoes for planting the regulations contained in the Decree of 16 November, 1932, 39-M. – M. D. of 30 October, 1934, instituting a Commission charged with studying the problems relative to the use of toxic substances for the control of parasites, insects and animals injurious to agriculture, 39-M. – M. D. of 31 January, 1935, nominating members of the Commission instituted by the Ministerial Decree of 30 October, 1934, with a view to studying the problems relative to the use of toxic substances for the control of parasites, insects and animals injurious to agriculture, 112-M. – M. D. of 15 February, 1935, indicating the laboratories selected for analysing samples of copper compounds used as fungicides, taken by the Service for the supression of frauds, 112-M. – M. D. dated 1 March, 1935, limiting the zones declared

infested by the Colorado beetle (*Leptinotarsa decemlineata*) and the zones of protection, 137-M. – M. D. of 23 March, 1935, establishing a Commission at the Ministry of Agriculture entrusted with the work of centralising and examining declarations on the planting of vines to replace those destroyed on account of infestation by grape phylloxera, 159-M. – M. D. of 29 April, 1935, providing for the exaction of an inspection tax for certain imports subject to phytopathological control, 181-M. – M. D. of 29 April, 1935, instituing a Commission at the Cereal Service of the Ministry of Agriculture for the purpose of studying suitable measures for the protection of reserve stocks against damage caused by rodents and insects, 181-M. – M. D. of 10 May, 1935, containing regulations for consignments of potatoes of the new harvest gathered in areas infested by the Colorado beetle (*Leptinotarsa decemlineata*), 181-M. – M. D. of 15 May, 1935, modifying the M. D. of 13 April, 1934, concerning the cultivation of potatoes, 181-M. – M. D. of 22 July, 1935, modifying, except with regard to apple and pear trees, paragraph No. 2 of Article I of the M. D. of 25 February, 1928, 229-M. – National Natural History Museum at Paris, 100-M. – Notice to the exporters of potatoes to Switzerland concerning the consignments of tubers of French origin, 40-M.

French Colonies: Ministerial Decree of 18 July, 1934, relative to the introduction of cotton seed into the F. C. with a view to protection against the pink bollworm (*Platyedra gossypiella*), 36-M. – M. D. of 8 February, 1935, modifying article 6 of the M. D. of 22 February, 1926, regulating the introduction of cotton seeds into the F. C., 134-M. – M. D. of 9 February, 1935, modifying the M. D. of 7 December, 1926, concerning the protection of the banana against Panama disease (*Fusarium cubense*), 135-M. –

French Indo-China: Decree of 26 December, 1934, concerning the importation of fruits, 113-M.

French North Africa: Locusts, 197-M.

French West Africa: Diseases of plants cultivated in the Ivory Coast, 196-M. – Insect pests of the oil palm in Dahomey, 269-M. – Locusts, 149-M. – Plant pests in the Ivory Coast, 221-M.

G.

Germany: Amendment dated 21 February, 1935, to the provisions concerning the protection against San José scale (*Aspidiotus perniciosus*) and the apple maggot (*Rhagoletis pomonella*) establishing that railway waggons for carrying fresh fruit, living plants and parts of living plants subject to phytosanitary inspection, originating from Hungary, should have their side doors sealed, 109-M. – Decree of 10 October, 1934, modifying the provisions of 26 February, 1932, concerning the use of ethylene oxide, 85-M. – D. of 23 November, 1934, concerning the drawing up of the list of customs houses charged with the inspection of consignments of fresh fruits, living plants and parts of living plants with regard to the presence of San José scale (*A. perniciosus*), 85-M. – D. of 22 December, 1934, modifying the list of customs houses authorised to accept consignments of fresh fruits, living plants and parts of living plants subject to phytosanitary inspection, 85-M. – D. of 27 March, 1935, concerning the application of the Law on hunting of 13 July, 1934, forbidding to lay poison outside houses and enclosed lands, 132-M. – D. of 24 April, 1935, containing modifications to the D. of 17 July, 1934, concerning the use of highly poisonous products, 157-M. – D. of 20 May, 1935, establishing a new list of customs posts which are authorised to accept consignments of fresh cherries intended for exportation, 203-M. – D. of 29 May, 1935, for

the purpose of preventing the introduction of wart disease of potatoes (*Synchytrium endobioticum*), 203-M. – General provisions based on the D. of 26 March, 1934, regulating the recognition of seeds, 156-M. – Law of 26 June, 1935, revising the protection of natural sites and rare plants and animals, 226-M. – Ministerial notification of 20 October, 1934, concerning the use of highly poisonous products, 34-M. – Modifications to the provisions concerning the protection against San José scale (*A. perniciosus*) and apple maggot (*Rhag. pomonella*), 156-M. – Notification of 8 April, 1935, publishing a list of horticultural and botanical establishments, nurseries, and gardens which are subject to regular supervision and are officially recognised as conforming to the conditions established by the International Convention of Bern on grape phylloxera, 157-M. – N. of 15 May, 1935, announcing that Turkey has adhered to the International Convention for grape phylloxera, of Bern, 202-M. – Ordinance of 14 August, 1934, in connection with which new regulations have been established relative to the quality of seed potatoes, 33-M. – O. of 17 December, 1934, concerning the inspection of potato plants intended for export, 85-M. – O. No. 8 of 20 June, 1935, establishing new regulations relative to the trade in potatoes, 203-M. – Provisions adopted on 24 October, 1934, by the Corporation of Agriculture (« Reichsnährstand ») concerning the planting of varieties of potatoes non-resistant to wart disease (*Synchytrium endobioticum*), 34-M.

See also: Anhalt, 15-M, 110-M. – Baden, 35-M. – Bremen, 58-M. – Hamburg, 86-M, 133-M. – Lippe, 15-M. – Lübeck, 157-M, 275-M. – Oldenburg, 110-M, 205-M, 275-M. – Prussia, 34-M, 58-M, 86-M, 110-M, 157-M, 227-M, 275-M. – Saar Basin, 227-M. – Saxony, 133-M, 205-M. – Schaumburg – Lippe, 179-M. – Thuringia, 133-M, 205-M. – Württemberg, 36-M.

Gold Coast: Fruit Industry (Bananas) Regulations, 1934 of 18 September, 1934, stating. *inter alia*, that bananas intended for export should be free from diseases, 60-M.

Greece: Decree of 28 March, 1935, declaring the commune of Rupranis infested with and the province of Agya free from grape phylloxera, 252-M. – D. of 17 June, 1935, modifying the D. of 14 April, 1927, prohibiting the importation of products liable to introduce grape phylloxera (*Phylloxera vastatrix*), 209-M. – D. of 19 September, 1935, declaring as infested by grape phylloxera the department of Trikkala, 253-M. – Losses caused by diseases, pests and meteorological conditions, 107-M.

Guatemala: Decree No. 1576 of 10 September, 1934, declaring free from import duties nicotine intended for insecticide purposes, 62-M. – Letter No. 123 of 1 December, 1934, of the Ambassador Extraordinary and Plenipotentiary of Mexico at Guatemala City, proposing to the Government of Guatemala to establish a Convention by the simple exchange of official letters, in order to carry out a simultaneous control of the South Americain locust (*Schistocerca paranensis*), 90-M.

H.

Hamburg: Amendment dated 26 February, 1935, to the Police Ordinance of 15 March, 1930, concerning the control of wart disease of potatoes (*Synchytrium endobioticum*), 133-M. – Law of 7 December, 1934, relative to the control of *Hylotrupes bajulus*, 86-M.

I.

India: *Chrysomphalus aonidum* in the Bombay Presidency, 224-M. – Damage done by frost in winter 1934 to crops and fruit plants in Punjab plains,

81-M. – Insect pests newly recorded in Burma, 151-M. – New plant diseases recorded in 1934, 176-M. – New diseases of crops during the year 1934-1935 in Burma, 273-M. – Plant diseases reported in Punjab, 55-M.

International Institute of Beet Research: Vth Assembly, 132-M.

Italy: Decree dated 16 January, 1935, in order to prevent the poisoning of bees in the province of Ravenna, 114-M. – D. No. 46153 of 29 March, 1935, containing measures on locust control in the province of Cagliari, 138-M. – Law No. 897 of 1 April, 1935, trasforming into a Law the Royal Decree-Law No. 1692 of 4 October, 1934, 229-M. – L. No. 885 of 8 April, 1935, transforming into a Law the Royal Decree-Law No. 2025 of 10 December, 1934, relative to the importation of liquid hydrocyanic acid for use in the control of scale insects of citrus trees, 160-M. – List of communes declared infested by grape phylloxera (*Phylloxera vastatrix*) or suspected of being infested up to 31 December, 1934, 114-M. – Ministerial Decree of 30 September 1934, grouping in a syndicate of viticulture, according to the terms of the Law No. 987 of 18 June, 1931, owners of vineyards in the province of Piacenza, 40-M. – M. establishments of seed disinfection existing in the province of Schleswig-Holstein, under official control, 58-M. – D. of 13 December, 1934, modifying the provisions contained in the D. of 4 March, 1933, concerning the protection of fields and gardens against pigeons, 86-M. – D. of 14 February, 1935, concerning public establishments for seed disinfection, 157-M. – D. of 7 March, 1935, annulling that of 5 February, 1934, relative to the cultivation of potatoes non-resistant to wart disease (*Synchytrium endobioticum*), 157-M. – Ordinance dated 23 August, 1934, relative to the control of asparagus fly (*Platyparea poeciloptera*) and rust (*Puccinia asparagi*), 34-M. – O. of 20 June, 1935, rending compulsory the control of asparagus rust (*P. asparagi*), 275-M. – Police Ordinance of 29 October, 1934, organising a general control of rats in Berlin, 35-M. – P. O. relative to the protection of fruit trees and bees in the greater part of the circumscription of Pomerania, 35-M. – P. O. of 6 February, 1935, concerning the control of the apple sucker (*Psylla mali*), 100-M.

R.

Rumania: Ministerial Decision No. 220659 of 3 November, 1934, concerning the introduction into Rumania of San José scale (*Aspidiotus perniciosus*), 17-M. – M. D. No. 97629 of 24 May, 1935, modifying the M. D. No. 220659 of 3 November, 1934, 161-M. – Wart disease of potatoes: Non-existance of this disease in the country, 250-M.

S.

Saar Basin: Notification of 29 July, 1935, concerning prescriptions of a phytosanitary order issued by the Government Commission, 227-M.

Saint Vincent: Regulation made by the Governor in Council on 21 September, 1934 under the authority of Section 15 of the Importation of Plant Diseases Prevention Ordinance establishing the form of health certificate for plant imports or exports, 139-M.

Saxony: Decree of 15 February, 1935, relative to the control of fruit diseases and pests, 133-M. – D. of 27 May, 1935, modifying the prescriptions concerning the sale of toxic preparations used for plant protection, 205-M. –

Schaumburg-Lippe: Decree of 22 May, 1935, relative to the public establishments for seed disinfection, prescribing measures analogous to those already adopted for the department of Hanover, 179-M.

Scotland: Importation of Elm Trees and Conifers (Prohibition) (Scotland) (Amendment) Order of 1935, of 2 July, 1935, prescribing measures analogous to those already adopted for England, 277-M. – Importation of Raw Cherries (Scotland) Order of 1935, of 9 May, 1935, prescribing measures analogous to those already adopted for England and Wales for the prevention of the introduction of the cherry fruit fly (*Rhagoletis cerasi*), 207-M.

Senegal: Decree No. 1759 of 17 July, 1934, establishing certain measures for the protection of ground nuts against the attack of ' bruches ' (*Pachymerus acaciae*), 18-M. – Locust control, 149-M.

Southern African Locust Bureau, 76-M.

Southern Rhodesia: Locusts, 7-M, 32-M, 56-,M 82-M, 108-M, 125-M, 178-M, 226-M, 250-M, 274-M. – New Records of fungus diseases for the year ending May 31, 1934, 30-M.

Spain: Decree of the Presidency of the Council of Ministers, dated 22 June, 1934, concerning the regulation of exports, etc., 37-M. – D. of the Presidency of the Council of Ministers, dated 13 October, 1934, relative to the export of oranges and other citrus fruits to foreign markets, 38-M. – ' Orden ' of 13 November, 1934, making the phytosanitary or phytopathological

inspection, compulsory for oranges and other citrus fruits intended for export, 38-M. – ' O. ' of 16 November, 1934, laying down conditions with regard to the examination of the lands declared to contain locust eggs, 16-M. – ' O. ' of 22 December, 1934, concerning the delivery of phytopathological certificates of origin for agricultural products subject to exportation quotas, and especially fruits and vegetables destined for France, 62-M. – ' O. ' of 18 January, 1935, disposing that all consignments of potatoes intended for export abroad, proceeding from the Balearic and Canary Islands as well as from continental Spain are permanently subject to previous inspection and the delivery of the corresponding phytopathological certificates, 111-M.

Syrian Republic: Decree No. 2551 of 25 June, 1934, relating to the importation into Syria of fresh grapes coming from Lebanon and packed in cases containing vine leaves, 40-M.

Sweden: Royal Decree No. 127 of 26 April, 1935, containing measures concerning the eradication of berberry bushes (*Berberis*) on certain lands, 184-M. – Royal Notification No. 503 of 12 October, 1934, charging the Plant Protection Service with the phytosanitary inspection of consignments of potatoes intended for export, 115-M.

Switzerland: Circular issued by the Department of Agriculture, Industry and Commerce, dated 22 March, 1935, to the prefects and municipalities of the Canton of Vaud, 161-M. – Ordinance of 24 November, 1934, concerning the control of wart disease of potatoes (*Synchytrium endobioticum*), 40-M.

T.

Thuringia: Decree of 18 March, 1935, adopting measures for protecting newly sown fields against pigeons, 133-M. – Police Ordinance of 29 March, 1935, relative to the control of dodder (*Cuscuta*), 205-M.

Tripolitania: Decree of the Governor dated 31 December, 1934, permitting to hunt, kill and capture of sparrows in Lybia at all times and at all stages of development, 91.-M.

Tunis: Decree of 15 October, 1934, applying to consignments coming from Portugal the measures laid down by Decree of 26 Yuly, 1932, for the prevention of the introduction of San José scale (*Aspidiotus perniciosus*), 40-M. – D. of 18 October, 1934, concerning the destruction of starlings (*Sturnus vulgaris*), 41-M. – D. of 20 October, 1934, completing the list of plant and animal parasites dangerous to crops, 41-M.

Turkey : Notification of the Germany Government, dated 15 May, 1935, announcing that T. has adhered to the International Convention for grape phylloxera of Bern, as from 1 March, 1935, 202-M.

U.

United States of America: Amendment No. 2 to revised rules and regulations supplemental to Notice of Quarantine No. 52, on account of the pink bollworm of cotton (*Platyedra gossypiella*), approved on 24 October, 1934, and effective on 31 October, 1934, 89-M. – A. No. 2 to revised rules and regulations supplemental to Notice of Quarantine No. 37 on account of certain injurious insects and fungus diseases, 112-M. – A. No. 1 to revised rules and regulations supplementary to Notice of Quarantine No. 63 on account of the white pine blister rust (*Cronartium ribicola*), 180-M. – A. No. 1 to revised rules and regulations supplemental to Notice of Quarantine No. 64 on account of the Mexican fruit worm (*Anastrepha ludens*), 207-M. – Bacterial wilt of maize, 80-M. – Entomological records, 6-M, 29-M. –

Notice of Quarantine No. 71 relative to the Dutch elm disease (*Ceratostomella ulmi*) in the States of Connecticut, New Jersey and New-York, 136-M. – Packing materials employed in connection with importatiou of nursery stock and other plants and seeds, 136-M. – Removal and revocation of the quarantine placed by Notice of Quarantine No. 62 (Narcissus Bulb Quarantine) upon each and every State of the continental United States and the District of Columbia, 112-M. – Revised rules and regulations supplementary to Notice of Quarantine No. 45, on account of gipsy moth (*Porthetria dispar*) and brown-tail moth (*Nygmia phaeorrhoea*) formerly referred to as *Euproctis chrysorrhoea*, approved on 27 September, 1934, 88-M. – Revision of Sugar-cane Quarantine No. 15 (Foreign) approved on 20 September, 1934, and effective on 1 October, 1934, prohibiting the importation into the United States of canes of sugar-cane or cuttings or parts thereof, sugarcane leaves, and bagasse from all foreign countries and localities, 88-M. – R. of Notice of Quarantine No. 30, approved on 4 October, 1934, and effective on and after 10 October, 1934, prohibiting the commercial movement of any variety of sweet potato (*Ipomoea batatas*) from Hawaii and Puerto Rico, 89-M. – R. of Notice of Quarantine No. 70 on account of the Dutch elm disease (*Graphium ulmi*) approved on 20 December, 1934, and effective on and after 1 January, 1935, giving the list of articles coming from the continent of Europe, which importation is prohibited, 89-. – R. of Notice of Quarantine No. 16 (Domestic), approved on 8 December, 1934, and effective on 1 January, 1935, forbidding to move any canes of sugar-cane, or cuttings or parts thereof, or sugar-cane leaves, or bagasse, from the territories of Hawaï and Puerto Rico into or through any other territory, State, or District of the United States, 111. – R. of regulation 2 of the black stem rust (*Puccinia graminis*) Quarantine, 112-M. – Rules and regulations (thirteenth revision) supplemental to Notice of Quarantine No. 48 on account of the Japanese beetle (*Popillia japonica*,) approved on 29 March and effective on 1 June, 1935, 228-M. – Tobacco diseases for 1934 in the Atlantic Coast region, 54-M.

Uruguay: Decree of 14 March, 1935, making compulsory to report, under pain of a fine, to the ' Defensa Agrícola ', the appearance of ants and also to destroy ant-hills, 231-M. – Locusts, 152-M. – Presidential Decree of 17 July, 1934, declaring the American ostrich (*Rhea americana*) useful to agriculture in that it destroys injurious insects, 18-M.

U. S. S. R.: Entomological Society of the U. S. S. R. 292-M. – Note of 12 September, 1935, notifying the Royal Ministry of Foreign Affairs of Italy that the Government of the U. S. S. R. adheres to the International Convention for Plant Protection signed in Rome on 16 April, 1929, 255-M. – Verbal Note of the People's Commissary for Foreign Affairs, dated 7 April, 1935, concerning the prevention of the introduction of plant diseases and pests, 184-M.

V.

Vaud (Canton of), see Swftzerland.

W.

Wales: New and interesting phytopathological records for the year 1934, 53-M. – Order dated May 3, 1935, regulating the importation of cherries into England and W. during the 1935 season, 158-M.

Württemberg: Decree of 3 October, 1934, relative to the control of pests of fruit trees, 36-M.

Y.

YUGOSLAVIA: Ministerial Decision No. 80684/II, of 4 December, 1934, forbidding the importation of living plants and parts of living plants from all countries declared or which will be declared, infested by San José scale (*Aspidiotus perniciosus*), 41-M. – Ministerial Notification No. 13308/II of 11 March, 1935, publishing the list of countries which must be considered infected, for the year 1935, by *Synchytrium endobioticum*, *Leptinotarsa decemlineata*, *Phthorimae operculella*, and *A. perniciosum*, 139-M. – M. N. No. 35675/II of 10 June, 1935, modifying the M. N. No. 13308/II of 11 March, 1935, 231-M. – Regulation No. 50700/II of August, 1935, establishing the measures relative to production, importation and trade in plant protectives, 231-M. – R. No. 50570/II of August, 1935, fixing the rules to be followed for the importation and transit of living plants and parts of plants, 231-M.

II.

ALPHABETICAL LIST OF COLLABORATORS

(OFFICIAL CORRESPONDENTS FOR PLANT PROTECTION TO THE INTERNATIONAL INSTITUTE OF AGRICULTURE).

ALFARO CARDOSO, JULIO GARDÉ, 7-M, 106-M, 128-M, 152-M, 201-M, 249-M, 274-M.
AYOUTANTIS, A., 209-M, 252-M.

BALLARD, M. G., 208-M.
BELO LISBÔA, J. C., 104-M, 175-M.
BODENHEIMER, F. S., 225-M.
BOURIQUET, M. G., 125-M.

DAVIDSON, JAMES, 55-M.
DE BARROS RODRIGUES QUEIROZ, JORGE, 78-M, 101-M, 173-M, 223-M, 269-M.
DELASSUS, M., 77-M, 149-M.
DIRECTOR OF AGRICULTURE AND FORESTS [PALESTINE], 16-M, 278-M.

EDSON, H. A., 54-M, 80-M.

GALLOWAY, L. D., 176-M.
GHOSH, C. C., 151-M.
GOVERNMENT GENERAL OF ALGERIA, 197-M.
